DOGWOOD

Carefully Grown on
Transplanted Understocks

This field of Pink Dogwood is budded on transplanted white dogwood seedlings. Note the uniformity of heavy calipered well branched trees. Look at the 2 to 3 foot tree below. Order your needs today and be assured of getting the best!

Our double white dogwood are grown exactly like the pink (at left).

They have a distinctly double bloom just a bit later than the native white thus extending your dogwood season.

Single whites are grown from transplanted liners spaced in the row to form well developed specimens.

CORNUS FL. RUBRA Pink Flowering

3 to 4 Feet High—BR—\$2.50 Ea.
2 to 3 Feet High—BR— 1.75 Ea.

2 to 3 Feet High—BR— .75 Ea.
1½ to 2 Ft. High—BR— .50 Ea.

CORNUS FL. PLENA Double White

2 to 3 Feet High—BR— @ \$1.50
1½ to 2 Ft. High—BR— @ 1.25
1 to 1½ Ft. High—BR— @ .75

Berberis T. Atropurpurea

(GOV'T. INSPECTED)

Our Red Leaf Barberry are 4-year transplants and they're really nice. The picture at right shows a 18/24" plant. Notice the well branched top and fibrous root system. A top quality plant that will transplant well. Our strain of Red Barberry is the best.

An order will reserve your needs for shipment whenever you say!

TREE WISTARIA

Landscape Specimens

Note the Sturdy Trunk and
Well Developed Head

These 5 year old plants have been pruned in the nursery row for 4 years. They'll transplant well and bloom early.

3 to 4 Feet High—BR
\$3.00

2 to 3 Feet High—BR
